

A Scalable Solution for Organizations and Teams Looking to Improve Resource Utilization, Reduce Turnover and Foster Growth:

- » Web-based environment permits everyone to view, update and share information, from any Internet-connected computer
- » Available as a locally installed or hosted solution
- » Automatic e-mails notify resources and managers of critical system events
- » Custom reports provide instant status overviews of resources, projects, tasks and assignments

» ARE YOUR PROFESSIONALS AS BUSY AS THEY SHOULD BE?

» WHEN WAS THE LAST TIME A REPORT HELPED YOU MAKE A MEANINGFUL BUSINESS DECISION?

» IS YOUR FIRM LIMITED BY A HODGEPODGE OF SYSTEMS?

Simplify Scheduling

Stop wasting effort trying to manage resource assignments with tedious spreadsheets and archaic manual systems. Create project teams on the fly based on a wide variety of criteria. View assignments and availability with FourthLink's **Visual Resource Management** tool.

Improve Resource Utilization

Deliver authentic, *measurable* improvements in resource **utilization** and customer satisfaction by reducing downtime and matching the right resource to the right task. FourthLink helps you establish resource skill sets and correlate resource availability with project task requirements. With Visual Resource Manager you can be sure your resources are utilized to their maximum potential.

Capture More Billable Time—Faster!

FourthLink provides a simple, easy-to-use **on-line timesheet** which displays project and task assignments. Time can be entered with ease and – *with a single click*– posted to your accounting system. No more lost emails or re-keying of data from spreadsheets. Time is *always* current. Project data is *always* up to date.

Share Knowledge Effectively

Unlike manual systems that isolate information on desktops or whiteboards, FourthLink provides a **common platform** for resource and project data. Everyone views, updates and shares information in real time from any Internet-connected computer. FourthLink provides the tools needed to keep you and your planners informed of skills, training and special qualifications as they grow and change.

FourthLink is incredibly easy to use. Within days of installation, you and your team will be reviewing skill sets, tracking opportunities, making assignments, updating time and running reports based on real-time, comprehensive views of your corporate and team data.

Features include:

- » **Shared activity, tasks and assignments** on a collaborative platform: team members can see all resource information
- » **Automatic E-mail notifications**—Resources are notified of assignments and managers are notified by the system of critical events.
- » **Custom reports** for instant status overviews of resources, projects, tasks and assignments
